

## Handbell and Handchime Marking Kits

Ever wondered how to mark your handbells and handchimes without damaging them? We have the solution. All of our bells have been marked with our kits and the labels have stayed in place for over 2 years. The bells are played 3 times per week so there is a lot of moving around of the cases. And having them marked by color makes it easier to determine who's belong to whom. **Our labels peel easy, stick solid and won't smear.** Use them to mark all your items including tools, lights, stands, trees, mallets, percussion equipment and anything else you need to track. Labels are small enough to fit inside the handles of your handbells – only 3/4" wide. 1/2" wide for smaller bells in black print on white only and no QR code.

Black print on Red

Black print on Green

Black print on Yellow

Black print on Orange

Black print on Blue

Small Kit: \$16.00

Medium Kit: \$20.00

Large Kit: \$25.00

XL Kit: \$30.00

# Order Form for Marking Kit

## One order form per kit

Thank you for purchasing our marking kit for handbells, handchimes, cases and mallets. We hope you find our kit to be a better way to mark and identify your handbells and handchimes should they become lost, stolen, or misplaced during a festival.

The labels are a custom made QR code and will include your name or church/organization and up to two contact telephone numbers. When the code is scanned, the name and phone number become readable text on your phone and the phone numbers become active links on smart phones.

There are several free apps for smart phones that will read QR codes.

The nail polish will be used as an extra visual for recognizing your handbells if the labels were to be removed.

Each kit contains the following:

1. Custom generated QR code printed with your name, address and phone number
2. 1 bottle of finger nail polish
3. Detailed instructions
4. Plastic case to store kit
